Elementary Education

Rayna Tinnon

"Other than location, one of the biggest factors that attracted me to Wayne State was its reputation of being a university that created great teachers. Most of the teachers that have made an impact on my life (including my mother) graduated from Wayne State and seeing as they have influenced me to pursue the field, it was only fitting that I attended Wayne State too."

TIPS FOR TRANSFER STUDENTS

"Get involved in campus activities and organizations. By doing this, you can have a better lay of the land regarding the different places and resources on campus. You can also network and meet new people by getting involved."

Amina Wright

"Wayne State is in my hometown, so I'm familiar with the area. It's home, basically. Also, my mentor, Dr. Cheryl Gibson-Fountain, is an alumni and she helped me with making the decision to attend WSU. Additionally, WSU is for diversity, and I love that!"

TIPS FOR TRANSFER STUDENTS

"Make sure to stay on track with your financial aid, and meet with an advisor. Take a trip to the school to see what the campus is like! Ask lots of questions!"

Social Work

Karen Williams

"The social work program attracted me as well as the fact that even though some of my credits were from long ago, a lot of them were still accepted. Also, the university is not far from my house, and it is close to the bus line if I need it."

TIPS FOR TRANSFER STUDENTS

"Ask lots of questions. Don't take no for an answer - go to someone else if you don't get the answer you want. I was persistent with calls and questions for an entire year before I was accepted into the BSW program. Get those transcripts in as soon as possible. Breathe."

Pre-Pharmacy

Wahida Khanam

"The reputation of Wayne State University attracted me the most. Also, the environment of the university is suitable for students from any culture, religion, or color. Cultural diversity in Wayne State is always appreciable. The campus has all the necessary services the students will need."

TIPS FOR TRANSFER STUDENTS

"It takes time to get adjusted to the new environment/system but once you get adjusted to everything, all is well. So, do not get scared. Do not miss orientation. Visit the campus before you start your first semester; it helps to find classrooms easily since it is a big campus. Make friends and join the student/university events to learn more about the university."

Secondary Education - Visual Arts

Tasnima Sathi

"What attracted me to Wayne State University was that they offered the degree I wanted, as well as the location of the University. My favorite place on campus is the Art Building. My plan, post-graduation, is to work as an Elementary School Art Teacher."

TIPS FOR TRANSFER STUDENTS

"Make sure your credits transfer and do the Michigan Transfer Agreement (MTA) for an easier transfer process, especially if you are unsure of your degree. Utilize your advisers, visit campus and ask questions."

Kristian Rice

"I chose WSU because I felt like I belonged here. There's so much to do here and it's in the heart of a great city. My favorite place on campus is The Transfer Student Lounge, located on the first floor of the UGL."

TIPS FOR TRANSFER STUDENTS

"Keep your GPA high, obtain as much experience as you can in your field before graduating, and find time to relax on a daily basis."

Public Health

Cynthia Johnson

"I attended WSU in 1985 majoring in Computer Science and worked at the Chrysler Corporation as a Computer Analyst for 25 years. Later, in 2008 the market crashed. My job was transferred to India, and I retired from the company. I traveled a lot but got bored and wanted to pursue my dream Job as a nurse. I attended Wayne County Community College, did all my prerequisites in nursing, and was ready to transfer back to Wayne State University."

TIPS FOR TRANSFER STUDENTS

"Research is the most important thing to do. Make sure that the University meets your needs. I attended Wayne State University in 1985, majoring in Computer Science and knew it met my needs. Secondly, how much does it cost? Will financial aid assist? Tour the campus and get acquainted with your advisor so that your stay is worthwhile and successful. My WSU advisor gave me some very vital information that led me to Public Health."

Economics

John Williamson III

"The person who influenced me the most at WSU was my mother. Watching her figure things out on the fly and question everything really planted a seed in me to do the same (even if I didn't realize it at the time.) So, when I was writing my thesis paper, it was fun to bounce ideas off the wall with her."

TIPS FOR TRANSFER STUDENTS

"You get out what you put in. Do not be afraid to participate in every forum, discussion, club activity, sporting event, or social event that the university has to offer. It will be scary at first because you'll feel like the new kid in school, but I promise you'll eventually meet some of your lifelong best friends here. Wayne State is not just going to get you a good education, but it's also going to help shape you into the adult that you will most likely be for the rest of your life."
